

FUNCTIONAL PRODUCTS INC.

Innovative Chemistry for Lubricants

Solid EPDM Products Typical Properties				
	Physical Form	Thickening Efficiency* (1 wt% in ISO 32, cSt)	PSSI (ASTM D6278)	Ethylene Content (%)
V-100	Bale	12	22	48
V-101	Bale	13	45	50
V-113	Bale	15	>50	55
V-114	Crumb	20	>50	60
V-207**	Powder	11	33	70
V-235	Pellet	14	39	16
V-255	Pellet	10	25	15

*100°C viscosity of ISO 32 is 5.2 cSt without polymer

**V-207 is recommended only for use in greases.

The above values are typical values only and are not be construed as product specifications.
